

United States Breastfeeding
COMMITTEE

PROTECTING • PROMOTING • SUPPORTING

October 29, 2010

John Grossmeier
President & CEO
Hannibal Regional Hospital
6000 Hospital Drive
Hannibal, MO 63401

Dear Mr. Grossmeier:

On behalf of the United States Breastfeeding Committee (USBC), I would like to commend you on Hannibal Regional Hospital's recent achievement of the prestigious Baby-Friendly designation. This is a remarkable accomplishment and contributes significantly to the health of women, infants, and families in your community.

We are noting this accomplishment on our website: www.usbreastfeeding.org. USBC is an independent nonprofit coalition of more than 40 nationally influential organizations representing over half a million concerned professionals and the families they serve. Though our member organizations vary in their individual missions, they share a significant common interest in advancing the health of Americans by working collaboratively to protect, promote, and support breastfeeding. Our website attracts frequent visitors, providing information about recent USBC initiatives as well as access to our various publications and resources.

If there are other ways that the USBC can support the protection, promotion, and support of breastfeeding in your state please let us know. We look forward to our continued work together to achieve our national breastfeeding goals and to create an environment where women and their families can be successful in achieving their personal breastfeeding goals.

Again, congratulations on Hannibal Regional Hospital's outstanding accomplishment.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robin W. Stanton'. The signature is fluid and cursive, with the first name 'Robin' being the most prominent.

Robin W. Stanton, MA, RD, LD
Chair
